

March 4, 2020

The Honorable Susan Collins United State Senate 413 Dirksen Senate Office Building Washington, D.C. 20510 The Honorable Tina Smith United States Senate 720 Hart Senate Office Building Washington, D.C. 20510

Dear Senators Collins and Smith:

The Mental Health Liaison Group (MHLG)— a coalition of national organizations representing consumers, family members, mental health and addiction providers, advocates and other stakeholders— is pleased to support the Medicare Mental Health Inpatient Equity Act. This critical legislation eliminates the discrimination against mental illnesses that continues to exist in the Medicare program as Medicare beneficiaries are limited to 190-days of inpatient psychiatric hospital care during their lifetime. This lifetime limit does not apply to psychiatric units in general hospitals and there is no such lifetime limit for any other Medicare specialty inpatient hospital service.

Through passage of landmark legislation, the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008, Congress put coverage for mental health and substance use disorders on par with other medical disorders. Also, that year, Congress passed important legislation to phase-in equalization of the Medicare outpatient coinsurance for mental and physical health. We must now finish the parity job and finally give Medicare beneficiaries the full parity that other individuals now have.

The Medicare Payment Advisory Commission reported that most Medicare beneficiaries treated in inpatient psychiatric facilities qualify for Medicare because of disability, hence they tend to be younger and poorer that the typical Medicare beneficiary. These Medicare beneficiaries live with serious mental illnesses (such as schizophrenia and bipolar disorder) and who are living with these disorders from a relatively young age. These illnesses are chronic and will require ongoing treatment and care over their lifetimes, including hospitalization when in crisis.

The elimination of the 190-day limit will equalize Medicare mental health coverage with private health insurance coverage, offer beneficiaries the choice of inpatient psychiatric care providers, increase access for the most seriously ill, improve continuity of care and create a more cost-effective Medicare program.

The MHLG commends your bipartisan leadership and looks forward to working with you and your staff to enact the Medicare Mental Health Inpatient Equity Act.

Sincerely,
