2018 NABH EXHIBITOR AND SPONSOR GUIDE

In March 2018, the National Association of Psychiatric Health Systems (NAPHS) became the National Association for Behavioral Healthcare (NABH) to: **reflect** the association's Mission to advocate for behavioral health and represent providers who deliver care to those with mental health and substance use disorders; **reflect** the association's Vision of a society where behavioral health is recognized, respected, and allocated resources with fairness and equity as part of overall health; **represent** the association's diverse membership; and **invite** other organizations to join the association.

NABH is pleased to provide this *Exhibitor & Sponsor Guide* (formerly known as the *NAPHS Purchasing Directory for Behavioral Healthcare Decision-Makers*). It is intended to help those who own, operate, and manage mental health and addiction treatment systems and facilities nationwide find valuable, specialized resources to better serve their patients and communities. We appreciate the support of the exhibitors, sponsors, and advertisers who provided information for this publication.

Accurate Lock and Hardware Co., LLC

Accurate Lock and Hardware offers an extensive range of ligature-resistant and ADA-compliant products that positively contribute to healing environments. Our team of experts is dedicated to developing innovative solutions for specific challenges, including retrofit scenarios, custom openings and bringing doors to compliance. Designed with patient care and staff safety in mind, all Accurate products are made entirely in the USA, which allows us the ability to quickly adjust, adapt and produce the best solutions to meet the ever-changing needs of the healthcare industry. Simply put, your challenge is our challenge. 1 Annie Place Stamford, CT 06902 | P: 203.348.8865 | E: sales@accuratelockandhardware.com

American HealthCare Capital (AHC)

With over \$1 Billion in active Sell-Side and Buy-Side engagements, American HealthCare Capital provides full service M&A advisory. For over 28 years, AHC has been the most trusted name in healthcare, having served the needs of middle market companies within all sectors of the healthcare industry, including Behavioral Health, one of the most active markets. We believe at the right price anything is for sale and take pride in our strategic marketing efforts to get the job done and our clients companies sold. Added bonus, AHC now provides a variety of financing options. Barrins & Associates Behavioral Healthcare Accreditation Consulting

Barrins & Associates Behavioral Healthcare Accreditation Consulting is a nationally recognized firm specializing in Joint Commission and CMS consulting services for the behavioral healthcare industry. Founded by Anne Barrins, CSW, a former Joint Commission surveyor, the firm has a 18-year track record working with psychiatric hospitals, behavioral healthcare organizations, and behavioral health programs in acute care settings. Our team includes psychiatry, nursing, social work, and an engineer specializing in Life Safety Code compliance. Visit our web site www.barrins-assoc.com to learn about our services and see feedback from our clients.

Behavioral Safety Products

Behavioral Safety Products specializes in producing exclusive ligature-resistant building products based on more than 44 years of field experience. In this ever-evolving industry, BSP continues to forge ahead and constantly innovate new products. Our desire is to stay ahead of the curve and meet the new challenges our industry faces. On a daily basis, we work one-on-one with facilities, architects, and engineers to be front-runners as new safety issues arise. We strive to design, develop, and manufacture products that are technically sound, aesthetically pleasing, and economically viable for your behavioral healthcare safety needs. BSP relies on guidelines and input from The Joint Commission in our endeavor to provide products that are pertinent to the current demands of the behavioral/psychiatric industry. BSP provides rapid access to critical products as facilities face steady increases in patient acuity and greater difficulty in patient monitoring. Contact Behavioral Safety Products at 706-705-1500 or at www.besafepro.com.

BWBR

BWBR is a design firm with a diverse practice in architecture, interior design, and master and strategic planning. Innovators in medical, health, and wellness planning, BWBR helps clients create environments to influence both the perception of mental health care and the delivery of services. Working with health systems, organizations, and their employees to leverage facility improvements for better care delivery and patient satisfaction, BWBR designs solutions that enhance what people do. Visit us at www.bwbr.com and facebook.com/BWBRsolutions or give us a call: Rick Dahl, AIA, and Scoot Holmes, AIA, ACHA, LEED AP, 651.222.3701.

CannonDesign

CannonDesign advocates for a new manner of working: one that integrates healthcare and design professionals. We believe that successful solutions are rooted in an understanding of where you are and where you want to be. We know that sensitively designed facilities positively impact patient outcomes and drive business and care model innovation now and into the future. At the forefront of behavioral healthcare strategy and facility design, our work has encompassed a spectrum of care modalities, ranging from community-based treatment centers to major tertiary-care behavioral complexes. Together, we develop solutions to the most complex challenges facing healthcare providers today. For more information, please visit www.cannondesign.com/our-work/markets/health/behavioral-health/

Pioneering science for exceptional care.

At Yale New Haven Psychiatric Hospital, we integrate psychotherapy, primary care medicine, neurostimulation and rehabilitation to provide a broad range of behavioral health services to diverse patient populations.

We've pioneered novel approaches such as using ketamine infusions and offering patients access to a variety of clinical trials to advance the care of treatment-resistant psychiatric disorders.

In affiliation with Yale School of Medicine's Department of Psychiatry, our staff includes a team of interdisciplinary clinicians, investigators and dedicated teachers who deliver compassionate, patient- and family-centered care focusing on wellness across our health system.

BEHAVIORAL SAFETY PRODUCTS

SAFE → AESTHETIC → FUNCTIONAL

Crafting innovative products that anticipate regulatory demands

An industry leader in ligature resistant products

BSP brings over 42 years of experience to serve your facility's needs. Our team's knowledge of industry demand is unparalleled. We are always looking to create proven and carefully crafted solutions. Our engineers are innovators in design and product development. Safety is our #1 commitment and our middle name.

Cerner Corporation

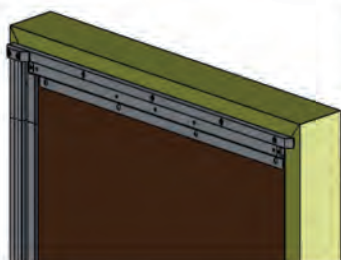

Cerner is a leading health information technology provider with solutions to support integrated care across a variety of programs and settings for mental health and addictions, as well as physical health. Cerner's Behavioral Health Solutions are successfully used in numerous psychiatric health settings, including inpatient, outpatient, IOP/PHP, residential, and state psychiatric facilities. Staff and clinical teams leverage Cerner's interactive clinical dashboards, extensive patient tracking utilities, a library of screening and evaluation tools, as well as a collection of operational reporting tools to facilitate actively engaging and managing client populations in a more safe and effective manner. Please contact us at 866-529-7547.

Comprehensive Pharmacy Services

Founded nearly 50 years ago and employing over 2,500 clinical, regulatory, and operational pharmacy professionals, Comprehensive Pharmacy Services is the nation's oldest and largest provider of pharmacy support services to more than 700 hospitals and healthcare facilities across the United States and Puerto Rico. CPS helps hospital pharmacists tackle complex problems such as medication reconciliation, hyper-inflated drug costs, standardization, centralized distribution, regulatory & compliance, and 340B programs leading to increased quality, reduced admissions and lower costs. Services provided by CPS include pharmacy management, pharmacy consulting, specialized pharmacy services, telepharmacy, 340B program compliance assurance, ambulatory & retail pharmacy services, medication related transition of care, and pharmacy analytics. For more information, visit <http://www.cpspharm.com>.

Door Control Services, Inc.

Selected to protect more than 3,000 patient room doors across the nation, Top Door Alarm® distributed by Door Control Services, Inc. provides medical staff continuous detection of suicide attempts when the top of the door is used as a ligature point. Photoelectric sensors recognize the presence of a ligature before pressure is ever applied to the door, allowing for a proactive, life-saving response. Designed for both new facilities or existing retrofits, on conventional or pivot hinge applications, Top Door Alarm® can design a solution specific to meet your needs. Contact us at 800-356-2025 ext. 216 or email topdooralarm@doorcontrolservices.com. Top Door Alarm® is patented with US008646206B2. SECONDS MATTER, NO PRESSURE REQUIRED

Life More Secure.

(877) 998-5625

The Door Switch™ is an over-the-door ligature-resistant product for Behavioral Healthcare Facilities.

The Door Switch™ provides a distinctive alert solution to enhance in-room resident safety at a critical time. During private time, though the hallway and restroom doors provide privacy, they can also pose a threat for those who may be considering self-harming activities.

Until now, the only solution for this threat has been the removal of the door or other invasive means that often diminish both dignity and respect. **The Door Switch™** changes this problematic situation by helping to mitigate the risk that can go hand-in-hand with privacy. It alerts the staff immediately, visually and audibly, if a resident's door is being used as an over-the-door ligature point. It also creates a time-stamped audit trail event log.

The Only US patented over-the-door ligature-resistant product on the market. US Patent No. RE42,991 and RE44,039.

You may visit our website at www.thedoorswitch.com.

Life, supported

with Cerner Integrated Health solutions

Life brings breaks and breakthroughs that affect the mind, body and spirit. Because behavioral and physical health are connected, the data and care that support them should be, too. The new Cerner Integrated model is designed to enable health care providers to help individuals achieve optimal health and wellness through holistic, data-driven, preventative and supportive solutions and services unique to each person's needs.

Reach out to us for more information about what services are included in the Cerner Integrated model at integratedhealth@cerner.com.

Education, Inc.

Education, Inc. helps hospitals and treatment centers to reduce operating costs while providing high-quality educational programs for K-12 student-patients. Working closely with your team and the school district, we customize each student's studies to keep him/her on track academically. We help normalize the experience, making integration of the educational component as seamless as possible. Since 1995, we have delivered over a quarter-million teaching hours in over 70 US healthcare facilities. Moreover, our programs are typically low or no cost to your healthcare organization. For more information, visit our website at www.educationinc.us or contact us at info@educationinc.us or 508-732-9101.

FasPsych, LLC

FasPsych, LLC provides immediate, innovative staffing solutions to hospitals and psychiatric facilities in need of practitioners. We have developed a specialized pool of psychiatrists and advanced practice psychiatric nurses to offer a wide range of services via telepsychiatry including psychiatric admissions/discharges, inpatient rounds, on-call coverage, video consultation and remote medical director functions. We have practitioners available in all 50 states and our services are scalable and can be tailored to meet the needs of your individual facility. Whether you're looking for part-time, PRN or long-term coverage, we'll work with your team to develop a staffing solution that meets your needs. Abraham Barton, CEO, 480-970-9097, abraham.barton@faspsych.com.

HCS

HCS provides an integrated clinical and financial IT platform to more than 6,000 LTACH, senior living, and behavioral health facilities. Since 1969, the HCS Interactant® platform has been delivering enterprise-wide and easy-to-adopt solutions for revenue cycle management, financial reporting, electronic medical records, mobile technology, and business intelligence. To learn more, please visit our website at www.hcsinteractant.com or call 800-524-1038.

Health Care Systems, Inc.

Health Care Systems (HCS), in business since 1983, provides certified electronic medical records, Clinician and Physician order entry solutions, Documentation, Assessments & Safety Check Modules and medication reconciliation care transition solutions with a particular emphasis on inpatient behavioral health systems, both institutional and private. Health Systems using the HCS Clinicals package on average demonstrate a 33% reduction in medication administration errors and a 45% reduction documentation time. For more information visit www.hcsinc.net or call 334-279-9711.

For more than 110 years, Rogers Behavioral Health has been providing children, teens, adults and their families with the highest quality of care to help them rediscover hope and healing in their lives. Delivering Personalized and Effective Mental Health Resources at Scale

myStrength's evidence-based platform uniquely empowers consumers to address conditions such as depression, anxiety, chronic pain, substance use disorders, and insomnia with highly-personalized and interactive mobile and Web applications. This digital platform also helps those with no diagnosable conditions enhance their everyday sense of wellness and well-being.

Over 150 of the largest health plans, integrated health systems (including *Atlantic Health System*, *Carolinas HealthCare System*, *Denver Health*, *Indiana University Health*, *Partners HealthCare*, *Tampa General Hospital*), community providers, employers, and universities have adopted myStrength to dramatically extend mental health access, improve quality of life and outcomes, and reduce the cost of healthcare.

*A recent randomized controlled trial (RCT) showed symptom reductions of myStrength users **3 times greater** than the control and an overall **55% reduction** in depression scores.*

Janssen Pharmaceutical Companies of Johnson and Johnson, Inc.

Janssen Pharmaceuticals, Inc., a pharmaceutical company of Johnson & Johnson, has a longstanding legacy developing innovative therapies and supporting programs, especially in mental health. In the 1950s the company's namesake, Dr. Paul Janssen, discovered and developed a novel schizophrenia treatment. Since then, Janssen has pioneered the development of long-acting, atypical injectable antipsychotics (LATs) for schizophrenia, offering patients long-acting symptom control. The company remains unwavering in its commitment to helping improve the lives of patients and their families by focusing on access to care, and delivering new treatments. Learn more at www.janssen.com and follow us on Twitter at [@JanssenUS](https://twitter.com/JanssenUS).

JDi Healthcare Consultants & Recruiters (JDi)

JDi Healthcare Consultants & Recruiters (JDi) is a nationally recognized consulting and executive search firm in the health and behavioral health fields. Along with her team, Jeri Davis, MBA, president, provides unparalleled healthcare knowledge in executive search, market research, industry analyses, sales training and coaching, marketing and branding. Over the last 30 years, JDi has established itself as the exclusive source for integrating planning, strategy and recruitment within one healthcare firm, and as the place where clients make valuable connections for future business opportunities. Ninety percent of JDi's clients are repeat customers and referrals due to the trust and confidence developed through working with JDi. Jeri is a highly respected national speaker and consultant for such groups as NABH and the American Psychiatric Association. She has authored two books: *Marketing for Therapists*, and *Marketing for Behavioral Healthcare Organizations—What Works and How To Do It*. Kingsway Group

Kingsway Group are experts in behavioral healthcare hardware and manufacture a wide range of products to provide the best-in-class solutions.

Products include:

- Washroom dispensers & Grab bars – the widest range of washroom products designed with patient safety and ligature reduction in mind.
- Door Hardware and Privacy Vision Panels – anti-ligature pull handles for every patient group, hinges and the unique Duralux privacy vision panel to provide staff a safe method of checking patient whereabouts before entering their bedroom.
- Anti-barricade – the SwingHinge double acting hinge and SwingStop anti-barricade stop. New SWITCH anti-barricade device improves staff safety and is retrofit-able.

Kingsway Group, 2807 Samoset Road, Suite 200, Royal Oak, MI 48073, USA, 1-800-783-7980, sales@kingswaygroupusa.com, www.kingswaygroupusa.com

High security, **low height**

Spirit Select® Mental Health Bed

Mental Health departments can place unique demands on hospital employees. Stryker has worked to create a solution with features that help to satisfy these demands and increase security within these specific units when partnered with specialized hospital processes. In addition to the specialized security features that can be added to Spirit beds, all beds have a 10.75-inch low bed height. This low height helps to significantly reduce fall injuries and help accommodate patients to create a more secure sleeping environment.

- Features:**
- Security lockout:** restricts all bed functions to the patient
 - Removable brake:** restricts bed movement
 - Filled siderails, headboard and footboard:** reduce ligature points
 - Non-removable parts:** patient safety

FasPsych Provides Innovative Psychiatry Hospital Staffing Solutions using Telepsychiatry

Contact

Expecting an EHR that's
comprehensive, user friendly
and ***affordable?***

No, you're not being unreasonable.

CareVue is a comprehensive support platform focused on empowering the entire healthcare enterprise. Complete clinical, revenue cycle, patient accounting and billing applications provide all the functionality you'll need to provide better care and realize full reimbursement.

Medsphere has added treatment planning, discharge summary, charting templates and group notes to CareVue to meet the unique needs of behavioral health facilities.

- o **Access** your system in the cloud or implement on site.
- o **Pay** as you go via subscription service—no massive upfront costs required.
- o **Improve** how you use your EHR with support from Phoenix Health Systems, Medsphere's healthcare IT consulting and service desk support division.

**Set aside some time to visit with Medsphere during NAPHS.
You owe it to yourself and your organization.**

**CareVue is the complete EHR every
healthcare organization can afford.**

LocumTenens.com is part of the Jackson Healthcare family of companies. Contact Kevin Thill, Vice President, thill@locumtenens.com, or 800.562.8663.

McLean Hospital

McLean Hospital is an international center for psychiatric treatment, education, and research. Founded in 1811, McLean is the largest psychiatric teaching hospital of Harvard Medical School and is dedicated to delivering specialized and individualized care provided by expert, compassionate members of its team. In addition to offering state-of-the-art diagnosis and treatment for a wide range of behavioral and psychiatric illnesses, McLean also offers an expanded array of specialized academic and clinical programs for children and adults with depression, borderline personality disorder, OCD, and addiction to drugs and alcohol. For more information call 800.906.9531 or visit www.mcleanhospital.org

Medsphere Systems Corporation

Designed for mental health facilities, Medsphere's OpenVista EHR empowers caregivers to improve outcomes, increase efficiency and provide better patient care. The integrated OpenVista EHR supports the complex documentation requirements of mental health care thanks to a portfolio of clinical and operational support functionalities: Admissions Assessments, Multi-disciplinary Treatment Plans (MDTP), Progress Notes, CPOE, Discharge Planning and a complete RCM suite. The MDTP module dovetails with clinical workflows, enabling the care team to plan, coordinate and document components of the care plan and track progress toward overarching goals. Medsphere makes OpenVista available through an affordable subscription service model that every hospital can afford. www.medsphere.com / 760-529-2295.

Meridian Behavioral Health

Based in the Twin Cities area of Minneapolis-St. Paul, Meridian Behavioral Health is one of the fastest growing, leading behavioral healthcare platforms in the country. Meridian provides acute psychiatric and substance abuse treatment services across a broad continuum of care, including in-patient, residential, out-patient and medication-assisted treatment. For more than 25 years, Meridian has developed and refined an innovative, evidence-based care model focused on positive patient impact. Today, the 1,400 employees of Meridian's network of eight brands serve patients at over 30 locations in five states. At this time of national crisis, Meridian continues to invest in new campuses and programs nationwide to better meet the needs of its patients. To learn more about the Meridian Health Behavioral Network, please visit <http://www.meridianprograms.com>.

Mertz Taggart

Mertz Taggart is a healthcare merger and acquisition firm that specializes in behavioral healthcare. This focus yields invaluable *insight* into the challenges and opportunities operators face. The depth of our industry knowledge is garnered by our *relationships* with industry leaders, knowledge of buyers' acquisition strategies, and our hands-on *experience* owning and operating a healthcare agency in the past. Our competitive advantages translate to *maximizing value* for our clients, as proven by over 80 successfully completed healthcare transactions since 2006. Contact Cory Mertz at cory@mertztaggart.com or 770.888.1171.

myStrength, Inc.

myStrength, Inc. is a recognized leader in digital behavioral health. myStrength greatly enhances traditional care models, while addressing issues of cost, lack of access, and stigma, to deliver mental health and well-being resources at scale. Grounded in evidence-based approaches, our platform targets the most prevalent and costly behavioral health conditions—empowering consumers with innovative self-care resources to manage and overcome challenges with depression, anxiety, stress, substance use disorder, chronic pain and sleep. myStrength collaborates with more than 140 health plans, integrated health systems, EAPs, disease management providers, managed and community behavioral health providers, strategic alliances, ACOs and FQHCs. HERE is where NeuroStar®
with Contact Sensing made
a difference for Andy

FOR THE TREATMENT OF MAJOR DEPRESSIVE DISORDER (MDD)

Doctors who expect the same precision from other
TMS systems are leaving treatment dosing to chance.

When contact with the head is off by just 1 mm, as much as a 40% loss in the prescribed TMS dose can occur.¹ **Only NeuroStar Advanced Therapy** with Contact Sensing precisely monitors treatment delivery in 3 dimensions and alerts the clinician if the coil loses contact, ensuring that the full dose is being administered.

**When remission from MDD is at stake, precision matters.
Trust the #1 TMS choice of doctors like you.**

INDICATION

NeuroStar® is indicated for the treatment of Major Depressive Disorder in adult patients who have failed to receive satisfactory improvement from prior antidepressant medication in the current episode.

IMPORTANT INFORMATION

The most common side effect is pain or discomfort at or near the treatment site. These events are transient; they occur during the TMS treatment course

and do not occur for most patients after the first week of treatment. NeuroStar Advanced Therapy should not be used with patients who have non-removable conductive metal in or near the head.

NeuroStar Advanced Therapy is available by prescription only. Please visit NeuroStar.com for full safety and prescribing information.

Advanced Therapy

Janssen CNS applauds those working together at the county, state, and federal levels, especially at the intersection of criminal justice and mental health reform, to champion a better future for individuals with serious mental illness, including schizophrenia.

We can and should continue to set a higher standard for how we support individuals with serious mental illness.

Janssen's unwavering commitment to delivering innovative mental health therapies spans 50 years, and we will continue to champion treatments to improve the lives of those with serious mental illness.

Yvonne Ford, Untitled Artwork from Reflections Art in Health

"Improving access to effective treatments is only one aspect of helping patients. By focusing on early intervention after diagnosis and advancing policies that ensure individuals with serious mental illness can get the care they need at the right time and in the right setting, we can improve health outcomes and reduce costs."

*"That's why we are also proud to support the **Stepping Up Initiative** and congratulate those individuals and communities for their commitment to reduce the number of people with serious mental illness in our nation's jails."*

"Together, we can achieve real, positive change."

—Michelle Wang Goodridge
President, Janssen CNS

Netsmart

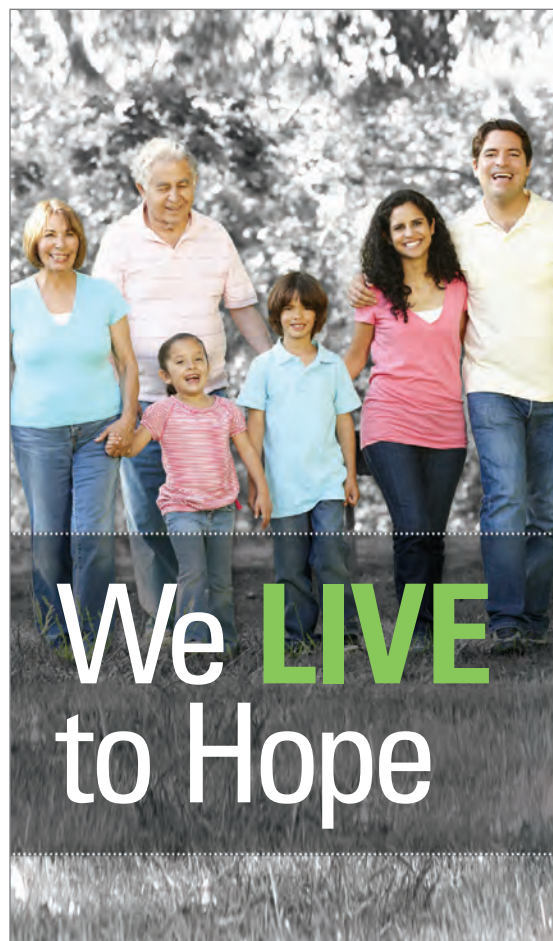

Netsmart innovates electronic health records (EHRs), solutions and services that are powerful, intuitive and easy to use. Our platform provides accurate, up-to-date information which is easily accessible to care team members in behavioral health, social services and post-acute. We make the complex simple and personalized so our clients can concentrate on what they do best: provide much needed services and treatment that support whole-person care. Learn more about how Netsmart is changing the face of healthcare today visit www.ntst.com.

NeuroStar

NeuroStar Advanced Therapy is the world leader in transcranial magnetic stimulation for the treatment of major depression with over 1.5 million treatments performed. NeuroStar has published the largest body of scientific evidence in support of this breakthrough technology, encompassing data from two large multisite randomized, controlled trials. NeuroStar has a unique contact sensing feature to confirm that the treatment coil is positioned accurately, delivering the right dose to the right location every time. Only NeuroStar includes TrakStar Cloud data management software that enables physicians to create and manage patient-specific treatment protocols, track patient treatment progress, and report on patient outcomes. www.NeuroStar.com

ObservSmart

Build a framework to support quality in everything you do. Accreditation from The Joint Commission helps create a standards-based culture of excellence that focuses on integrating data and leading practices into daily operations to provide a safe, high quality environment for those you serve. Since 1951, The Joint Commission has been the premier accrediting organization in healthcare, with customized standards and survey processes covering a range of settings, services, and populations. To learn more about how your health system can earn the "Gold Seal of Approval™," visit www.goldsealofapproval.org or call (630) 792-5771.

For the Health of our Community

Healing people and restoring hope is the essence of what we do at Loma Linda University Behavioral Medicine Center. Serving the Inland Empire for over 25 years, our compassionate and experienced staff understand the complex needs individuals are faced with when dealing with mental illness and addiction. Associated with a world-renowned teaching hospital, we are able to provide multi-level care in the following areas:

- Chronic pain and medication dependency
- Eating disorders
- Substance use recovery
- Adolescent self-injury
- Mental health services unique to youth, adults and seniors

Assisting our patients in meeting personal goals and guiding them on the road to recovery is why we **LIVE to Hope.**

The Healing Potential of Personalized Care

Every day, we dedicate ourselves to others, providing acute psychiatric and substance abuse treatment services across a broad continuum of care. Our network offers inpatient, residential, outpatient and medication-assisted treatments that are as compassion-driven as they are evidence-based. At Meridian Behavioral Health, everything we do is designed to help each client achieve meaningful, lasting change – the kind of change that can turn lives around.

MERIDIAN BEHAVIORAL HEALTH

Specialists On Call

Specialists On Call, Inc. (SOC) is the largest provider of acute care telemedicine services and technology to U.S. hospitals and partners with approximately 400 hospitals and systems in 36 states. SOC's flexible, enterprise platform offers an end-to-end solution that enables rapid deployment and seamless optimization or expansion of telemedicine programs across any combination of acute and non-acute care sites. www.specialistsoncall.com

Streamline Healthcare Solutions

Since 2003, Streamline Healthcare Solutions has been developing and implementing software solutions to behavioral healthcare organizations nationwide. Our web-based software solutions are well suited for organizations that wish to have one system that can map and incorporate its entire business processes to a single solution, and then continue to evolve as business needs develop. Our proposed solution, SmartCare™, is a web-based browser based enterprise-wide application built for the delivery, management and coordination of behavioral healthcare services. The SmartCare application has obtained ONC HIT 2015 CERT and is deployed at all service levels. Contact: Ted Wright, VP Sales and Marketing 877-467-4741 Info@streamlinehealthcare.com

Stryker

Mental Health departments can place unique demands on hospital employees. Stryker has worked to create a solution with features that help to satisfy these demands and increase security within these specific units when partnered with specialized hospital processes. In addition to the specialized security features that can be added to Spirit beds, all beds have a 10.75-inch low bed height. This low height helps to significantly reduce fall injuries and help accommodate patients to create a more secure sleeping environment. Contact your Stryker representative for more information about our mental health offerings. www.patientcare.stryker.com.

The Imperial Difference

BREAK-A-WAY FROM TRADITIONAL HOOKS & PINS

Imperial Curtains Are Getting Easier

No more hooks or pins. No cords or pulleys. Now there's an innovative, easy-to-use alternative

Imperial's BREAK-A-WAY™ Curtain Hanging System

Our Innovative Break-A-Way™ System

- Creates a more secure environment
- Is simple to install and use
- Featuring Sure-Chek™ shower curtain fabric
- Large selection of fabrics
- Reduces maintenance costs

Imperial Fastener Company

1400 S.W. 8th Street,
Pompano Beach, Florida 33069

Phone: 954.782.7130

Fax 954.782.0089

Email: info@imperialfastener.com

Curtains should be easy. That's why you need to know more about Imperial Fastener's proven curtain hanging system.

We know that managing today's facilities isn't easy ... that's why we make sure that the curtains are.

It's Easy!

Just mount the ceiling or wall track using tamper-resistant hardware, insert the special safety tabs, and easily attach the curtains with the continuous loop tape that is sewn to the top hem.

What's more, Imperial can supply any curtain or track you need, for any application. Fabrics are available in solids and prints, and all are flame resistant and machine washable.

Virtual Medical Staff

Virtual Medical Staff provides healthcare facilities with access to fully credentialed and licensed, board-certified telemedicine physicians to expand patient care, eliminating the need for additional full-time staff. To date, VMS has served more than 215 healthcare facilities in 32 states and is growing. VMS physicians have the privilege to serve an average of 2,500 to 3,000 patients per month through a wide variety of settings of care utilizing telemedicine. Virtual Medical Staff is a Jackson Healthcare company, one of the largest healthcare staffing and technology companies in the U.S., serving more than 7 million patients in over 1,400 healthcare facilities. Contact Tommy Binner, Senior Director, at 678-992-1297

VisibleHand

Foresight, by VisibleHand, is an advanced behavior & Q15 documentation system for psychiatric hospitals. We help psychiatric hospital systems improve compliance, clinical insight, and reimbursement through our mobile system, connecting behavioral health technicians, management, clinicians, and UR teams in real-time. We offer proximity verification to reduce risk and ensure technicians are performing their Q15s in-person. Foresight analyzes data and provides actionable reports for compliance, performance, utilization review, and clinical effectiveness. VisibleHand provides hardware, software, connectivity, training, and integration services for a turn-key solution with low I.T. overhead. Contact us at info@visiblehand.com to learn more.
